to view our video of the bulls on offer

A Word from Bill, Connor, Ted, Family & Crew...

Welcome to the first preview of the bulls and programs that comprise our 54th offering. The sale is a large undertaking that consumes most of our time, thoughts and effort through the year. Our love for the cattle business, and specifically, the bull business is as strong as ever.

The Canadian cowherd can not be replenished overnight, grass can not be established in one year to carry cows and miles of unmaintained fence simply can not be rebuilt soon enough to push the breeding herd back to a level that can match the bunk space available in feedyards across Canada and the USA. **The calves being carried in cows this winter will be worth more than their mothers by Fall of 2024 and the market shows no signs of stopping there. Long story short - if you have the cow inventory and are willing to calve them there is a great opportunity for profit. Those who have hung onto the cow's tail are looking like they will be rewarded for their grit.**

Please browse through this flyer - it is a preview of the incredible set of high caliber bulls on offer. We have placed emphasis for years on optimum vs maximum. Our goal is to manage our cattle under honest commercial conditions. They must flourish under the same circumstances that our customers expect of their own cattle or they will find their way to town. Equal treatment of our contemporary groups and stacks of records gives us and our customers an accurate genetic assessment. Decisions can then be made on real genetic differences. We avoid man made, non heritable expectations that can't be replicated in the real world.

We have been the choice of professional cow outfits for years and would love to show you why. "Dollars and Cents" operations can find cattle that will simply work for a living to make their new owners profitable. **Our cattle do this by coming to you with convenience traits like foot and leg structure, fertility, udders and temperament in check. Longevity and breeding capability has been held paramount to drive down your annual cost of service and add to your bottom line.**

Make your plans to join us on February 3, 2024 at the Ranch. The bulls are on feed and are easy to tour - the cows can be toured with a little planning as they don't come home until early April and are spread across a 140 mile radius earning their keep. We would be darn excited if you could make it to the ranch ahead of time. Cow outfits are busy though, and if that is not possible check out our flyer, order your free catalog and enjoy the bull sale preview video which will be available in the new year on our website, www.hill70quantock.com.

There is a reason that hard working farm and ranch families have been choosing our bulls for their outfits for 53 years. The welcome mat is always out - don't hesitate to contact us today.

Sight Unseen Purchase Program

trusted by hundreds of cattlemen just like you!

HOW DO WE DO IT?

Your most economical way to access all your bull requirements this year. Especially when combined with our unique 60/40 Finance Plan. In fact we sell hundreds of thousands of dollars of bulls this method annually. All Sight Unseen orders are handled by Bill, Connor and Ted.

HOW DO YOU DO IT?

- You set the price - the quality plus appraise them to your satisfaction before they are yours.
- We know our cattle - that's our business - their strengths and weaknesses. We will personally help you select cattle to improve your bottom line.
- Complete data on all bulls - easy to read, easy to understand, completely documented no hidden formulas.
- Free Delivery on All sight unseen purchases in Western Canada. Cost share past that point. We arrange the trucking - the drop off points - you have no worries, the job will be done and done right the first time.
- No Obligation - satisfaction on arrival or we take them home.
- Think about it - folks if I went to your cow herd, you know - the best - the worst and everything in between. I would ask you for your input on your herd. Think on it - it really makes the most sense.
- Leaving an order doesn't suit you - again this year we have our live phone lines at ringside

Give Bill & the Boys a call about our Sight Unseen Program, they will be with you from the 1st phone call to the corral.

We welcome you to come anytime - anyday to view the bulls prior to the sale

"Thanks in large part to the bulls I've bought from you, My steers averaged their highest weaning weight ever at 633 lbs"
- Jerry Anderson, Alberta

...Herefords - more hybrid vigor because so much of the industry has been Hereford free for years

...They are ideal crosses for your exotic and Angus cross cows

...no B.S., our Herefords are not as you might think of Herefords. They are thicker, deeper, wider bodied bulls with added dimension. The moderation and functionality in these bulls are built for the industry today. These are the Herefords that everyone says they can't find...

There is a reason our Herefords are so popular.

Call or email us anytime, any day or use the **CLIP & MAIL** on the back page to be sure you receive your 80 page Sale Catalogue & Video!

100 - Red Angus - All Twos

You can't swing a cat around here without hitting a heifer bull!

... Birth weights that will easily work with your heifers (70-80 lb. BW) and more than enough performance for your mature cows (80-100 lb. BW)

Use our Red Angus bulls to add performance, maternal traits and convenience to any red, red whiteface or Charolais base cow herd.

... Watch the bull video online or order DVD today...

...600-700 lb. weaners 3+ lb. gainers on test...

... where the heck are you going to find 100 Red Angus Two Year Old bulls... all in one day and from one outfit?

"Real impressed with the three bulls from last year. Excited to see the calves" - Todd Hoberg, Saskatchewan

70 - Black Angus - All Twos

Many sired by birth weight trait leaders

... moderate framed, beefy and "wide bodied bulls" ... truck loads of them!

...Use our black bulls to put the black color in your calf crop. They'll add length and top the market. They work exceptionally well on red or black base cows or buckskins, to add performance and convenience. The heifer calves will be the envy of your neighbors.

...buy from an outfit that "lives the commercial cattle business" every day... just like you.

Cowboys, these are stout, deep, two year olds.

Spend your \$\$\$ wisely, quality is what sets us apart from the competition. Don't buy anywhere until you check out these bulls, at the ranch or on our website.

10 – Gelbvieh x Red Angus Balancer Bulls

- All Twos

Profitability starts with the cow!

...Gelbvieh sired mother cows will produce in your herd longer than other continental sired females.

...Gelbvieh influenced females are highly fertile, moderately framed, and raise meaty calves in tough environments.

...add a touch of Gelbvieh maternal excellence to your program. Documented early sexual maturity plus carcass merit. ...more grass economics, less diesel

“Just picked up the bull in Kamloops. Looks good and very quiet - thanks.” - Chris Wilson, British Columbia

80 – Charolais - 45 Twos - 35 yearlings

Bulls designed for commercial trade. Polled bulls, red factor and all beef. Moderate convenience type Charolais bulls bred for easy fleshing, good haired buckskin and silver calves that are born unassisted. Quality and numbers on offer sets us apart.

...Nearly All Polled Bulls

...huge demand for tans & silver calves.

Call or email us anytime, any day or use the **CLIP & MAIL** on the back page to be sure you receive your 80 page Sale Catalogue & Video!

30 - Simmental x Black Angus Hybrid Bulls

- All Twos

...The best of both worlds!

...Angus udders and convenience.
Simmental muscle, milk, hair, Polled and Black!

We welcome you to come anytime - anyday to view the bulls prior to the sale

Take advantage of SimmAngus heterosis which results in more lifetime production and added longevity to your herd.

...They say pictures don't lie. Watch our Bull Video!

"Pulled bulls last week and they stayed in good rig in some rough country"

- Tate Harris, North Dakota

40 - Simmental x Red Angus Hybrid Bulls - All Twos

THE BEST OF BOTH WORLDS
The function of cross breeding is to maximize heterosis or hybrid vigor. SimmAngus are a convenient way to capture heterosis and value. SimmAngus have the ideal balance of maternal and carcass traits. No breeds offer more commitment to profitability.

Hill 70 Quantock BULL DEVELOPMENT PROGRAM...

More Value Than Ever **\$125** On Yearlings, **\$150** On Two's

We have established a program to develop these young bulls here at Hill 70 Quantock to better serve our customers. We will keep the bulls at home after the sale and feed them until early April on a total mixed ration to gain about 2-1/2 lbs./day. We will then independently semen test them and deliver them to central points throughout Western Canada. Delivery will be from about early April to early May.

The price for this service is \$125 for yearlings and \$150 for two's payable at sale time. It's a real value as it includes 75 days board, independent semen test, and central point delivery. Insurance will be on site to insure all bull purchases.

HEY... It must be a good way to go....
93% of the bulls are left on bull development.
