INTRODUCTION

“BARN BURNIN’ BULL SALE”

We are so glad that we can welcome old friends, new acquaintances and everyone that has been with us for a very long time. 54 consecutive years of hosting Bull Sales and it never gets old. The excitement of building to our sale day still drives us in almost every decision and action we take. We owe much to our full time staff - their interest, enthusiasm and skills make the daily routine a lot of fun. Our ranch is a family one - Bill & Sherry, Connor & Bailey and their kids Rhett and Emily along with Ted & Maryn are on the ranch full time. We are always grateful for help and input from Adam & Tenille and their kids Benton, Elle and Hartley along with Rebecca & Layne who are pursuing their own passions away from the ranch. Their involvement when their schedules allow is always appreciated.

Our bull numbers grow steadily each year; the consistency and quality seems to only get better. The bulls are grown gently through their first winter and then grassed all summer until being brought in by mid fall to our large development pens. We will present the bulls to you in modest condition - unquestionably sound from ample exercise and a competitive environment. We do have a smaller pen for the bulls who can't "hack it" with the conditions they're provided. They will see a high barley ration and call Brooks or High River home in the New Year.

We often use the foreword to describe our program and the theories that we have when it comes to developing the cattle and the operation. We don't however talk about the nature of our operation and how we feel it relates to the larger cattle business. We are proud of our cattle and their track record. They have been good to us and we ask them to pull their own weight to remain a part of our operation. We are humbled every year by the cattlemen and women who choose our outfit as one they feel will help them achieve their own operation's goals - we feel that this is because the results our cattle produce are highly repeatable - genetic selections are made solely on the animal's own merits. Their environment and development is realistic in relation to the rest of the commercial industry. Expectations created when management starts to influence natural merit and order have never served us or our customers well.

Please consider this your invitation to join us on February 2nd and 3rd, 2024 at the Ranch. Tours of the sale offering are available any time, any day ahead of the sale. There is always a coffee pot on or a cold drink somewhere in the yard. Following the sale on Saturday we would love the chance to catch up once the sale is complete - we will again have entertainment and a courtesy shuttle back into Lloydminster. We look forward to hosting you for our 54th on Saturday February 3, 2024 at the Ranch!

GENERAL INFORMATION

TENTATIVE SALE ORDER

Sale Schedule:

February 2 All Day cattle viewing and supper
February 3 11:00 am - Dinner served all day
12:00 pm - Sale starts
Hospitality following the sale at the farm

Location:

The sale will be held at the Ranch, 10-1/2 miles or 17 kms North of Lloydminster. We are just off the blacktop so watch for the signs. Heated sale barn just 75 yards off the highway.
Highway Address: 514054 HWY 17 County of Vermilion River

WHEELCHAIR FRIENDLY FACILITY

Health:

All purchases can be hauled anywhere in Canada, without testing. We maintain a high level of herd health on all cattle, especially sale bulls. Feel free to call us for a complete list. All two-year-old bulls have been semen tested in the month prior to sale day.

Retained Interest in Bulls:

We do reserve the right to collect semen on any of the bull lots in this catalogue for within herd use only. This retained interest collection is at our expense and your convenience and in no way will incur your walking privileges to the bull.

Sale Day Phones:

1-800-665-7253 or Cell. **1-780-871-4947**
Cell. **1-780-871-8496** Cell. **1-780-218-4301**
1-306-307-2873 Fax **1-780-875-8332**
Email info@hill70quantock.com
www.hill70quantock.com

Accommodation:

Contact us for reservations 1-800-665-7253 or 780-875-8794 or the Royal Hotel Lloydminster at 1-780-875-6113

Air Service:

Direct flights to Lloydminster from Calgary.

Credit:

Refer to our 60/40 plan on page 6.

Liability:

The owners, the employees and the sale staff and representatives accept no liability for accidents that occur; although these are rare at cattle sales and therefore any persons who attend this sale do so at their own risk.

Contract:

The terms and conditions of the sale shall constitute a contract between buyer and seller of each animal sold. Any announcements from the stand will take precedence over what is printed in this catalogue.

Soliciting:

IT IS UNETHICAL FOR ANYONE TO PROMOTE, ADVERTISE OR ARRANGE THE SALE OF ANY CATTLE, OTHER THAN THOSE IN THE SALE, ON THE SALE PREMISES.

1. Hereford Two Year Olds
2. Charolais Two Year Olds
3. Charolais Yearlings
4. Black Angus Two Year Olds
5. Red Angus x Simmental Two Year Olds
6. Black Angus x Simmental Two Year Olds
7. Red Angus Two Year Olds
8. Red Angus x Gelbvieh Balancer Two Year Olds
9. Bred Females
10. Open Females

ONLINE BIDDING IS NOT AVAILABLE

If you are wanting to bid at the sale and are unable to attend... please give any of us a call. We would love to help you out!

Wanna know what we offer?

400 Bulls & Commercial Females

... no need to run the wheels off your pickup - one day, one place, one stop, bull shopping!
Bulls that have never had their feet trimmed!

Cowboy Friendly Programs

Read on to see which program can work for you...

SIGHT UNSEEN PURCHASE PROGRAM

...the industry's Premier Sight Unseen Program – it's done right the first time.

HOW DO WE DO IT?

Your most economical and trusted way to access all your bull requirements this year. Especially when combined with our unique 60/40 Finance Plan.

In fact, we sell hundreds of bulls this method annually. All Sight Unseen orders are handled by Bill, Connor and Ted.

HOW DO YOU DO IT?

- **You set the price – the quality**, plus we **appraise** them to your **satisfaction** before they are yours.
- **We know our cattle** – that's our business - their strengths and weaknesses. We will personally help you select cattle to improve your bottom line.
- **Complete data on all bulls** – easy to read, easy to understand, completely documented with **no hidden formulas**.
- **Free Delivery** on **All** Sight Unseen purchases in Western Canada. Cost share past that point. We arrange the trucking - the drop off points - you have no worries, the job will be done **and done right the first time**.
- **No Obligation** – satisfaction on arrival or we take them home.
- Think about it – folks if I went to your cow herd, you know - the best – the worst and everything in between. I would ask you for your input on your herd. **Think on it – it really makes the most sense**.
- **If leaving an order doesn't suit you, call early to reserve your phone line at ring side.**

Give Bill, Connor or Ted a call about our sight unseen program, they will be with you from the 1st phone call to the corral.

HILL 70 QUANTOCK HANDSHAKE WARRANTY

Simply put, when you buy a bull from Hill 70 Quantock we guarantee that you will have a bull to breed your cows - no matter what happens. All bulls are guaranteed to pass a semen test done by a licensed veterinarian using current, accepted industry standards when they reach 14 months. We provide warranty on soundness problems, provided they were not induced by physical injury or mismanagement. Your best protection for injury is to use **Extended Warranty Coverage**.

Should any Hill 70 Quantock bull fail to be a satisfactory breeder in his first season, he will be replaced with a bull of equal value and performance level. Should this not be possible, an adjustment in value will be made to reflect the genetic value of the bulls involved or a credit towards the purchase of another Hill 70 Quantock bull will be awarded. All warranty and responsibility is limited to replacement of the bull in question and in no way warrants loss of calf crops, or calf crops that may have resulted from this.

Should you have any problem whatsoever, call us right away, **not six months later**, as we keep a battery of loaner bulls to be used whenever they are needed.

We recommend **Extended Warranty Coverage** at time of sale – a sound investment and very easy to do at sale time or by delivery date.

EXTENDED WARRANTY PROGRAM

• Basic Warranty 1.75%

- Covers bulls from sale day (February 3, 2024) through April 30, 2024 **OR** delivery, whichever comes first.
- **Must be put on ALL bulls left at Hill 70 Quantock that are on the bull development program.**
- Can be converted to **Extended Warranty** at any time up to April 30, 2024 **OR** delivery.
- Protects against loss of use from either injury or death

• Extended Warranty 7.5%

- **Covers bulls from sale day (February 3, 2024) until September 30, 2024**
- Covers loss of use due to injury **AS WELL AS** death
- We will replace the bull with a qualified breeding bull of equal value **OR** replace the bull and adjust the value agreed upon **OR** loan a bull to get through the existing breeding season **OR** take the bull back and issue a credit for the next year's bull sale from when the bull in question was purchased.
- Claims that can not be physically assessed by Hill 70 Quantock will need a certificate from a licensed veterinarian to validate claim, as well as to provide identification in the event of death.
- Credit issued on a bull per bull basis
- Credit will only be applied to balance owing on bull(s). Credit will not be applied toward future Basic/Extended Warranty or bull development.
- In the event of salvage sale where bulls have been shown neglect relating to their health, body condition or physical appearance a minimum salvage value of \$2,200.00 will be applied to the bull(s) in question.

FREE DELIVERY - SO COME IN YOUR CAR!!

Within a short time after the sale we will arrange delivery of all cattle safely, to within a short distance of their new homes. This delivery will be provided to central ranch locations, convenient to every buyer. No matter where you live we will get very close to you. Due to cost and time, please be prepared to meet us when we phone to inform you of deliver dates. **We run our delivery routes in both February and April for all bulls.**

Delivery will be provided in the Western Provinces. On cattle going longer distances, Hill 70 Quantock will cost share delivery. Ontario and East, Hill 70 Quantock pays delivery to the Manitoba/Ontario border. We make all the arrangements.

You may take advantage of our **\$50/bull** "Haul Yer-Own" discount on all bulls.

WANTED

Repeat Buyers

Folks... if you bought bulls in the 2022 or 2023

Hill 70 Quantock Ranch Barn Burnin' Bull Sales

you qualify for a rebate of 3% of your total **BULL** purchase in the 2024 Barn Burnin' Bull Sale. Rebate cheques to be sent at a later date.

60/40 FINANCE...

If it works for you... it works for us!

We have developed a 60/40 finance program with 0% interest.

Pay us 60% down sale day, leave a post-dated cheque for the 40% due July 1, 2024, O.A.C.

plus sign a legal lending agreement. Its' simple... it's easy and it helps us all

Give us a call anytime - anyday.

GOOD NEIGHBOR PROGRAM

Bring your neighbor to the sale. If they have not bought bulls in 2022 or 2023 and you both buy **bulls**, we will refund each of you \$200. You must register at the office before the sale. Minimum purchase of **\$5000/customer**. **If it works for you, it works for us!!**

HILL 70 QUANTOCK BULL DEVELOPMENT PROGRAM

A Real Value at \$125 on yearlings - \$150 on Two Year Olds

We have established a program to develop these young bulls here at Hill 70 Quantock to better serve our customers. We will keep the bulls at home after the sale and feed them until early April on a balanced TMR ration to gain about 2-1/2 lbs/day. We will then independently semen test them and deliver them to central points throughout Western Canada. Delivery will be from early April until early May.

The price for this service is \$125 for yearlings payable at sale time. It's a real value as it includes 75 days board, independent semen test and central point delivery.

On two year old bulls we will board bulls until April and deliver. As all two year olds have already been semen tested, we will recheck testicles and only retest any that are in question. **The charge for this service is \$150/bull.**

So, if possession of a young bull is inconvenient for you, use this program - another customer service from Hill 70 Quantock.

Expert Sale Team

Our sale is a big effort among many people. Whether you are looking for consultation on any of the bulls or females, sight unseen purchases and or bidding assistance, your best bet is to consult Bill, Ted, Connor, Adam, Jim, Casey and Jesse to assist you. They are all very familiar with the cattle.

HOW TO WATCH OUR SALE VIDEO...

As we move away from mailing out DVD's of our bull video, please use the QR code listed above to watch our video online! If you would still like a hard copy of our video we are more than happy to send you a DVD, please just call or email to request one!

1. Open the camera on your mobile device
2. Hold your phone over top the QR code (barcode above)
3. Wait until the yellow text appears near the code and click on that.
4. This will take you to the Hill 70 Quantock Ranch Website where our video will be displayed on the main page starting in the new year!

Official Host Hotel for the 2024 Hill 70 Quantock Bull Sale!

Rate – \$90+ taxes

Centrally located:

5620 - 44 Street (Hwy. 16 West), Lloydminster, AB - Call 780-875-6113 or 1-800-661-7221

Please try to book rooms as soon as possible. We have a block of room set aside at the Royal Hotel. There is a restaurant on site.

EPDs are “Expected Progeny Differences.” They are a tool in selection for traits when the accuracies are above 50%. EPDs compare all cattle across the whole breed. EPDs incorporate the individual animal with its average ancestry performance. EPDs do not compare across breeds and are totally breed specific. EPDs indicate a probable variance above or below breed average for that trait for a given bulls progeny. Use them as a guide in the direction you want your herd to go.

Birth Weight – Birth weight is related to calving ease. A number higher than breed average indicates more birth weight while a lower than breed average indicates lighter than average birth weights.

Weaning Weight – The EPD value predicts the difference in average 205 day weights of bull calves compared to calves of all other bulls evaluated. The higher the value the heavier the weaning weight.

Yearling Weight – The EPD value predicts differences in average 365 day weights of a bulls progeny compared to all other evaluated. The higher the value the more yearling weight and often extremes breed larger mature size.

Milk – The milking ability of a bulls daughters expressed in pounds of calf weaned. The EPD value predicts the difference due to milking ability in average 205 day weight of a bulls daughter's calves of all other bulls evaluated. Too high a value often means bigger, problem udders and cows that work too hard to maintain body scores.

Accuracy – Accuracy is a measure of the reliability of an EPD. Accuracy's above .5 (50%) are most reliable. EPD's cannot be compared between breeds.

— AVERAGE E.P.D.'s BY BREED AS OF DEC 2023 —

Breed	BW	WW	YW	Milk	TM
Hereford	+2.7	+55	+89	+26	+54
Red Angus	+1.3	+41	+71	+25	-
Black Angus	+2.0	+53	+92	+23	-
Charolais	+0.5	+45.8	+88.3	+21.1	+44

HEREFORD SALE BULLS

These are Hill 70 Quantock Herefords!

This Ranch was founded on a belief in Hereford cattle close to 75 years ago and that belief is as strong as ever today. While the breed has seen its ups and downs in commercial acceptance through the years it is now more than ever that they are poised to make a positive impact on cowherds across the country. The "Bald Faced Truth" is that **Baldie females lead every female sale in the country and are the envy of neighbors. Look to Hill 70 Quantock Herefords to make you more money as they create replacement females that can provide enough milk to wean 600+ lb. calves (without creep feed) that are stouter, thicker ended and bigger ribbed without huge birthweights. Hill 70 Herefords are moderate framed, full of meat and muscle and grow quickly to mature size on an efficient growth pattern.** Rediscover what your Dad knew - take advantage of modern Herefords and all they have to offer. Don't forget - Hereford bulls have the best disposition in the business for all the times when you really don't need a rodeo.

Real Herefords...
offer more heterosis to the industry!

"Herefords have a thicker hide than the European breeds. Thicker skinned animals have more insulation, reducing the amount of additional energy that the animal requires."
Alberta Agriculture

Boys – these are the bulls you say you can't find!

HILL 70 QUANTOCK HEREFORD PERFORMANCE PROFILE

CALVING TRAITS			MATERNAL TRAITS			GROWTH TRAITS		CARCASS TRAITS	FERTILITY
AOD	CE	BW	ADJ 205 DW	WW/EPD	MILK/EPD	YW/EPD	ADJ 365 YW	REA	SS
5	U	90	660	+56	+19	+84	1195	+0.04	38

AOD - Age of Dam.

CE - Calving Ease.

BW - Actual Birth Weight.

ADJ/205 DW - Weaning weight adjusted to 205 days for easy comparison.

WW EPD - Growth differences up to 205 days. The higher the # the more weaning lbs.

Milk & Growth

EPD (TM) - Combination of Milk and Weaning Growth Across Breed

YR. EPD - Growth differences thru to 365 days. The higher the # the more yearling lbs.

ADJ 365 -Yearling weight adjusted to 365 days

REA EPD - Reflect differences in an adjusted 365 day ribeye measurement based on a carcass measurement of harvested cattle.

SS - Scrotal circumference taken within 30 days of sale - online and posted at sale.

ACC	0.30	0.77	0.67	0.59	0.37	

529C has seen heavy service in our Hereford herd since he was a yearling. A complete outcross pedigree, full pigment, freckle face and a production record that demands attention. Many daughters are now in production and will be his lasting legacy. They consistently and quietly are adding up as mother cows that are our kind: easy fleshing, beautiful uddered, short marked females that breed back timely and raise heavy calves. A real North Star to make the kind of females the breed needs more of. **16 sons on offer**

RED ANGUS BULLS

The Hill 70 Quantock Red Angus program traces its roots back to a handful of black heifer calves in the fall of 1970. These females were bred Red Angus via AI and the rest is history. Annually, we maintain approximately 350 mature Red Angus females. We feel that our herd is a no nonsense, "dirt on the pants" group of females who each need to meaningfully contribute to progress and go to work to keep the lights on at the ranch. We expect our Red Angus to be versatile - calving ease and maternal traits come to the forefront all the while maintaining balance to be able to provide cattle with the ability to grow and be efficient in their growth. As is the same across our program - soundness, foot quality and udders have been rigorously culled to remove any cattle that cannot maintain pace in a competitive, real world environment.

Hill 70 Quantock Red Angus have

- Never had their feet trimmed
- More depth
- Spring of rib
- Documented convenience for cow size - calving ease, fleshing and performance
- Level udders, small teats - we know what makes life easier.

SS - Scrotal Size updated on website in January 2024 and available at the sale!

Red H70 Quantock 85 Miss 384G

The spitting image of his sire, 285X. Super maternal cattle that are easy calving and moderate at birth with explosive growth built in. 809 has the bonafide Herd Bull look - a #9 washtub for a crest, deep bodied, big middled and with a groove down his top that holds rainwater. We can't say enough good about him - his very productive wedge shaped daughters are the envy of every cow man - and should be with his CAA designated elite mother. **17 sons on offer.**

Red H70 Quantock 107 Ms 611P

Outcross pedigree out of a cow that quite literally never misses. No matter which way we breed his mother, her bull calves sit at the front of the order - or in the case of this mating, make herdbulls back to back. We calved the first 131F daughter last year and knew right away we needed more. Find these good green tag bulls on sale day and their legacy will be the daughters all while pushing the wean weights on sons. **12 sons on offer.**

Red H70 Quantock 703 Ms 865B

A true breeding bull in the most genuine sense; 342 will cover a quarter section at a half trot in summer to get to a cow in heat. Perfect, dark feet and a muscular build on this athletic bull. Study his numbers and you'll be more impressed - a big time spread in his actual BW and WW, top 1% for CE and BW. His 228Y mother is a short gestation cow who has calved within a 365 day window through her entire production record. We are looking to 342 to make females like his mother who put dollars in cowboys pockets. **9 sons on offer.**

Colby Herman with his Reserve Champion steer in the Good Spirit 4-H club. He was a Blockade 256D grandson!

Patsy Wilson with her Champion steer at the Okanagan County Fair sired by a Trust Harland 364 son!

RANCH CREW

Luke Tompkins

Tristan Dow

Tom Menzies and Liesel Gray were here for Winter and Spring from Australia. A pleasure to have around and always up for a road trip!

Rowan Croft and Charlie Feilen joined us this Spring and Summer from Australia. A joy to have around and they even taught Benton a few things. Thanks guys!

BLACK ANGUS

Black Angus cattle have been a part of Our ranch for quite some time now - Dad started in Red Angus in 1970 by breeding a group of Angus heifers to Red Angus bulls and keeping the calves. The resulting females were either red or red carriers and the rest is history. In 1994, Bill and Sherry got back into black cows and from there the program has seen a steady increase in both size and industry acceptance. **They are expected to thrive in the same environment as the rest of our cows - working mothers who graze corn all winter, breed back on time and bring in bull and heifer calves that are in demand.**

- Moderate framed bulls
- Easy fleshing, sound, never had their feet trimmed
- Maintain your cow size
- Reduce your cost
- Light BW - quick growth to weaning
- The most affordable in the industry
- Reduce your workload
- Reduce your capital outlay

SS - Scrotal Size - updated on website in January 2024 and available at the sale!

— BLACK ANGUS PERFORMANCE PROFILE —

CALVING TRAITS			MATERNAL TRAITS			GROWTH TRAITS

A cool drink of water - The Bull version of a 1981 Lincoln Continental with all the options. Long made, low set, wide bodied, travels effortlessly and as proud as you can make them. Sons will sire those ultra fancy calves that market show lists love to brag on. They are big middled and wide bodied with perfect feet. Purple tag sons will find friends on sale day. **13 sons on offer.**

A Resource son we retained for ourselves. 1296 is built as soundly as you can make one at the ground and those feet carry a lot of bull while still being comfortable and athletic as he sets into motion. If you are looking for something to moderate mature cow size, increase mature cow weight while increasing foot and bone size the 1296 sons will fit the bill. He gives progeny the classic, correct angus breed character while being constructed like a heavy spec kenworth. **11 sons on offer.**

CHAROLAIS BULLS

The Hill 70 Quantock Charolais bull program has been developed on the same principles you have become accustomed to with our Herefords, Red Angus, Black Angus and Hybrids. Our number one goal is the commercial cattleman and customer satisfaction. We are not satisfied until you are satisfied.

Our bulls are **MODERATE FRAMED, THICK, EASY TO HANDLE**, Charolais bulls that possess **LOTS OF HAIR**. As always we have presented a wealth of data on the bulls, right from birth weights, scrotal sizes and all the pertinent performance weights to aid you in your selection. All Red Factor bulls are noted on the top right hand corner of every pedigree.

As usual it is our pleasure to work with Gordon and Leone Thurston, Colette Thurston and Blair Ford and Kevin and Crystal Stebeleski and their families as co-operators on this great breed of cattle. Both outfits are long-term families in the Charolais breed with great cow herds and most of all the passion that it takes to make registered cattle work. As always the bulls have been developed with their future in mind... they will last. All the bulls are on feed at the ranch, just north of Lloydminster. We welcome your visit any time, just drop in or if you can't make it, just call.

1-800-665-7253 and we can go through the bulls. **Owned, sold and warranted by Hill 70 Quantock.**

UNDERSTANDING SCURS

Some polled cattle have scurs, which are incompletely developed horns that are usually attached to the skin and can be scab-like or can resemble horns. Having scurs is why the phenotypic condition is sometimes hard to identify. Scurs are also genetic but different from the polled gene, and in bulls the gene for scurs is dominant. So, **if a bull has scurs, he can be either heterozygous (Ss) or homozygous (SS), and if a female has scurs, she must be homozygous (SS)**. Cows that are Ss will be smooth polled. **Scurs can only be seen in polled cattle because horned cattle hide the scurred gene.**

Here are some mating examples:

- 1) If you have a scurred cow (Pp for the horned/ polled gene and SS for the scurred gene) and she is mated to a PP smooth polled bull (ss), all of the heterozygous polled bull calves should be scurred. More importantly, the bull calves produced from this mating that are not scurred should be PP.
- 2) All of the females produced in this example would be smooth polled but would carry one dominant gene for the scurred trait and all calves of both sexes would either be smooth polled or scurred/polled because they would all receive a dominant gene for polled from the bull.
- 3) If a heterozygous scurred female is bred to a heterozygous scurred bull, all homozygous polled calves will not have scurs. All homozygous horned calves will not have scurs. The only scurred female will be heterozygous for the horned/polled trait and homozygous for scurs

(Reprinted from the November 2015 American Hereford World)

— CHAROLIS PERFORMANCE PROFILE —

CALVING TRAITS			MATERNAL TRAITS		GROWTH TRAITS		
AOD	BW	CE	ADJ 205/DW	WW/EPD	YW/EPD	PROJ. 365/DW	P/H/S
4	78	U	660	+10	+50	1150	P

AOD - Age of dam - aids in evaluating longevity and production

BW - Actual Birth Weight taken 24 hrs of birth

CE - U - Unassisted E - Easy pull H - Hard pull M - Malpresentation

ADJ/WW - Weaning weight adjusted to 205 days of age.

WW EPD - Reflects growth up to weaning a cross breed. Refer to EPD page for breed averages and full explanation.

YW EPD - Weight differences up to 365 days.

PROJ/YW - A projected weight at 1 year using their adjusted weaning weights and test gain to project to 365 days.

P/H/S - P - Polled H - Horned S - Scurred

CHAROLAIS TWO YEAR OLDS

Lot C-288

“A customer is the most important visitor on our premises. He is not dependent on us. We are dependent on him. He is not an interruption to our work. He is the purpose of it. He is not an outsider to our business. He is a part of it. We are not doing him a favor by serving him. He is doing us a favor by giving us the opportunity to do so.”

- Kenneth B. Elliott

Last day that the feed wagon ran!

2023-2024 Clipping Crew

Logan Spence, Curtis Bielecki and Ollie Steele. A big job done well and still smiling!

RED & BLACK SIMANGUS

Our SimmAngus bulls have made believers out in the real world. The ideal blend of Simmental performance, milk and growth and Angus structural soundness, longevity and maternal instinct. Our offering of these bulls is growing every year to a growing number of people who appreciate what they bring to the table. If you're looking for the perfect blend of each breed then take advantage of Heterosis and climb aboard. We produce all of these bulls at the Ranch and are slowly and surely growing our program to ensure that quality stays high. All of these bulls have complete parentage and performance records to help in your selection - you will notice the mothers

Scrotal Measurements available online in January 2024 and sale day!

are plucked from the middle of the purebred herd and the matings behind them read as well as any cow bred for purebred bulls. These bulls are full two year olds - calved on grass in late April and May and run in big contemporary groups during development to weed out any bulls that simply can not perform. As you have come to expect - these bulls are produced using only purebred Simmental sires that are homozygous polled. In the Black SimAngus - All herdsires are either multi-generation black or Homozygous black as well, to ensure that there are no unwanted horns or coat colors on the resulting progeny. Contact us today to learn more.

RED ANGUS X GELBIEH BALANCER BULLS

Gelbvieh sired out of some real solid Red Angus cows. Take the time to walk through these bulls sale day, they will impress you. Add a touch of Gelbvieh to your red or black cows, gain the **economic advantage of heterosis** in your next calf crop, yet never having to change your management. Take advantage of the Gelbvieh's **early sexual maturity**, excellent **milk flow** and compliment all the positive attributes of the **Red Angus** breed. Check them out, we know you will find the good in them. Every year they are some of our heaviest weaning calves.

COMMERCIAL FEMALES

These females are all raised by ourselves at Hill 70, **guaranteed not traded, imitated or put together.** We offer **Sight Unseen Purchase** on all these heifers.

We do ask that you look after the delivery on your own, however we can arrange custom trucking for you. We do not deliver a lot of bulls in February as most are left until April. If our truck is going to a central point after the sale we will certainly haul them for a small amount, only representing our fuel.

BREDS
